

ACEPREP AI - USER MANUAL

Introduction

AcePrep AI is an AI-powered Android application designed to help students and professionals prepare for technical assessments, coding tests, and job interviews using advanced Artificial Intelligence technologies.

This manual explains how to install, use, and navigate the application.

System Requirements

- Android Version: Android 8.0 (API 26) or higher
 - Internet Connection Required
 - Minimum 3GB RAM Recommended
-

Installation Guide

Step 1: Download APK

Download the APK file from the GitHub repository.

Step 2: Install APK

- Open the APK file on your Android device
- Allow installation from unknown sources if prompted
- Click Install

Step 3: Launch Application

After installation, open AcePrep AI from your app drawer.

User Registration

1. Open the application
 2. Click on “Sign Up”
 3. Enter:
 - Full Name
 - Email Address
 - Password
 4. Click Register
-

User Login

1. Open the app
 2. Enter email and password
 3. Click Login
-

Main Dashboard

The dashboard provides access to:

- AI MCQ Practice
 - AI Mock Interview
 - Job-Specific Interviews
 - Performance Analytics
 - Career Prediction
 - Admin Dashboard
-

AI MCQ Practice

Features

- AI-generated technical MCQs
- Multiple technical subjects
- Timer-based quizzes
- Instant scoring

How to Use

1. Select a subject
 2. Start quiz
 3. Answer all questions
 4. Submit quiz
 5. View score and AI feedback
-

AI Mock Interview

Features

- Voice-enabled AI interviewer
- Speech-to-Text support
- AI evaluation and scoring

How to Use

1. Open Mock Interview
 2. Select interview type
 3. Enable microphone permission
 4. Speak your answers
 5. Receive AI feedback
-

Job-Specific Interviews

Users can practice for:

- Android Developer
- Python Developer
- Full Stack Developer
- Data Scientist
- Cyber Security Analyst
- Cloud Architect

Users scoring above 85% may receive an AI-generated Job Offer Letter in PDF format.

Performance Analytics

The analytics dashboard displays:

- Quiz performance
 - Interview scores
 - Skill analysis
 - Real-time charts
-

Career Prediction

The AI analyzes user performance and predicts suitable career paths based on:

- Accuracy
 - Communication skills
 - Technical knowledge
-

Security & Privacy

- User data is stored securely using Firebase Firestore
 - Authentication is handled through Firebase Authentication
 - Voice processing uses Android secure services
-

Troubleshooting

App Not Opening

- Restart device
- Reinstall application

AI Features Not Working

- Check internet connection
- Verify API configuration

Voice Mode Not Working

- Allow microphone permission
